

FISHING KIT

Fishing kits are great gifts for any boy, age 5 - 9 or age 10 - 14.

Items needed:

- 10 ½ " felt circle
- Twine or heavy string—2 pieces, each 33" long
- Bobbers and sinkers
- Fishing hooks
- Fishing line—50 feet per kit
- Medicine bottle
- Small pieces of posterboard
- Dowel rod (optional)—12" long

To make pouch...Make small marks one inch apart, one-half inch from outside edge of circle. Cut small holes at each mark. Start at any hole and weave one piece of twine through holes until the circle is complete. Adjust twine so that tails are even. Do the same with the other piece of twine, but start at the opposite side of the circle. When the tails are pulled, the pouch should draw together like a drawstring bag.

Put assorted hooks and sinkers in medicine bottle. Wrap 50+ feet of fishing line around posterboard rectangle. Place medicine bottle, fishing line and bobbers into pouch. Be sure to place 12" dowel rod in each shoebox with the fishing kit when packing your boxes.
